

**Amendments to the Drawings**

FIGS. 3 and 4 have been amended. In both figures, the size of subpixels 210 and 214 has been reduced to conform these drawings to the specification and claims, and to the subpixel configurations shown in FIGS. 1 and 2. Other aspects of the TFT structures surrounding subpixels 210 and 214 in FIGS. 3 and 4 have also been amended to reflect the reduced size of the subpixels.

FIGS. 1 and 2 have not been amended and appear as originally filed, but for purposes of the issued patent, Applicant has filed a complete set of corrected and substitute drawings.

Attachment: Three (3) Replacement Sheets including FIGS. 1 and 2, FIG. 3, and FIG. 4.

**REMARKS**

This amendment is being filed after the Notice of Allowance mailed May 4, 2007 but before payment of the issue fee. Applicant is filing substitute drawings in response to a requirement in the Notice of Allowability. Applicant is also updating references to co-owned applications in the specification and is making minor grammatical corrections to the claims. Applicant therefore respectfully requests that this amendment be entered.

**Amendments to the Specification**

Paragraphs [01] through [05] have been amended to provide updated information about the commonly owned applications cited in those paragraphs; in particular, the published patent application document numbers and issued patent numbers have been provided for the cited commonly owned applications.

Applicants believe that none of these amendments adds new matter to the application.

**Claim amendments**

Claims 1 – 7 were originally filed in this application and are allowed in their original form. Claims 1, 3 and 5 – 7 have been amended herein to correct minor grammatical informalities. In claim 1, the missing word “and” has been added. In claim 3, the singular form of the word “subpixel” is changed to the plural form. In each of claims 5, 6 and 7, extraneous words have been deleted, and verb tenses have been corrected, so that the claims read as grammatically correct sentences. In claim 7, the missing word “subpixels” has been added; the intended word is clear from the prior phrase in the claim which reads “a subset of said second set of subpixels.”

Applicant respectfully submits that none of these amendments adds new matter to the subject application.

Substitute Drawings

The Notice of Allowability required that corrected/substitute drawings be filed in the subject application.

FIGS. 3 and 4 have been amended. In both figures, the size of subpixels 210 and 214 has been reduced to conform these drawings to the specification and claims, and to the subpixel configurations shown in FIGS. 1 and 2. Other aspects of the TFT structures surrounding subpixels 210 and 214 in FIGS. 3 and 4 have also been amended to reflect the reduced size of the subpixels.

FIGS. 1 and 2 have not been amended and appear as originally filed. For purposes of the issued patent, Applicant files herewith, as an attachment to this Amendment, three (3) sheets of Replacement drawings for entry in the subject application.

The undersigned respectfully requests that the Examiner indicate in the next communication whether the corrected drawings have been accepted, or indicate further action to take with respect to these drawings.

Conclusion

Applicant respectfully submits that the amendments made herein are suitable for an After-Allowance amendment under 37 CFR 1.312, and respectfully requests that the Examiner and Director approve entry thereof without requiring the application to be withdrawn from issue.

If the Examiner determines that some of the amendments made herein are suitable for entry but other amendments made herein are not suitable for entry, Applicant respectfully requests that the amendments determined to be suitable for entry be entered in the application without requiring submission of another amendment.

Appl. No. 10/807,604  
Amdt. Dated June 19, 2007  
Amendment after Notice of Allowance mailed May 4, 2007

The Examiner is invited to contact Judith C. Bares at (408) 200-7386 if a further explanation or information about the claim amendments made herein would expedite the entry of this amendment in the subject application.,.

Respectfully submitted,

By: Judith C. Bares/
